### Intent, Implementation, and Impact in Physical Education, Sport and Outdoor Learning. 2022/2023

Intent	Implementation	Impact
<p>Within our schools it is our intention to teach Physical Education, in a safe and supportive environment, ensuring children attain optimum physical and emotional development and good health.</p> <p>We want all children to experience a wide variety of sports and develop physical skills which will enhance life-long fitness and life choices. PE can challenge and promote self-esteem through the development of physical confidence and problem solving; it can teach children to cope with both success and failure in competitive, individual and team based physical activities at both an intra and inter level. (Lose with dignity – Win with grace, but always strive to beat a personal best.)</p> <p>Our curriculum aims to improve the wellbeing and fitness of all children, not only through the sporting skills taught, but through the physical literacy underpinning the values and disciplines that PE promotes. Sport provides an ideal environment for all our children to further develop on their journey to succeeding in our strongly held school values.</p> <p>All our staff will have the support and opportunity to increase their confidence, knowledge and skills in PE, school sport and outdoor learning. Modelling fair play and embedding adaptability, resilience and cooperation as the building blocks of teamwork and physical development. Celebrating strengths and developing ability in all areas of physical activity over time. (Practise makes progress)</p>	<p>Our schools follow a PE curriculum that is structured to deliver a range of high-quality teaching and learning opportunities, during which every child participates to develop their skills and learning through competitive, team and individual sports.</p> <p>Through our provision, children are inspired to succeed at PE and develop a lifelong love for sport.</p> <p>Children with additional needs are provided with appropriate support to enable them to take part and gain confidence in skills, understanding and motivation.</p> <p>We teach the National Curriculum, supported by a clear progression of skills and knowledge. This ensures that skills and knowledge are built on year by year and sequenced appropriately to maximise learning for all children.</p> <p>Children gain experience of a variety of fundamental skills focusing on: agility, balance, co- ordination and fitness. Children take part in developing individual skills, group skills and team games, using PE equipment appropriate for their age. During the year all children from Y6 to Y1 will have a series of structured swimming sessions and to explore and understand opportunities in their local environment. Teacher’s confidence and skills and knowledge grow alongside the children with clear individual feedback given that is personal and immediate as and when appropriate.</p>	<ul style="list-style-type: none"> <li>. The ability to acquire new knowledge and skills exceptionally well and develop an in-depth understanding of PE.</li> <li>. Participation in a variety of physical activities, games and sports through quality teaching that is engaging and fun.</li> <li>. The ability to swim at least 25 metres before the end of Year 6 and knowledge of how to remain safe in and around water.</li> <li>. Access the opportunity to climb one of the Three Peak.</li> <li>. The willingness to practice skills in a wide range of different activities and situations individually, in small groups and in teams; to apply these skills in chosen activities to achieve exceptionally high levels of performance, including success in competitive sports.</li> <li>. The children will have an understanding and take responsibility for their own health, achieving high levels of physical fitness; utilising the skills and knowledge acquired through PE.</li> <li>. A healthy lifestyle, achieved by eating sensibly, avoiding smoking, drugs and alcohol and exercising regularly.</li> <li>. The ability to remain physically active for sustained periods of time and an understanding of the importance of this in promoting long-term health and well-being.</li> <li>. The ability to take the initiative and become excellent young leaders, organising and officiating, and evaluating what needs to be done to improve; motivating and instilling excellent sporting attitudes in others.</li> <li>. Exceptional levels of originality, imagination and creativity in their techniques, tactics and choreography; knowledge of how to improve their own and others’ performance and the ability to work independently for extended periods of time without the need for guidance.</li> <li>. A keen interest in PE: a willingness to participate eagerly in every lesson; highly positive attitudes and the ability to make informed choices about engaging fully in extra-curricular sport.</li> </ul>
